ABOUT ME

With over 10 years of design magic, I've transformed diverse projects (B2B, B2C, D2C) across finance, education, healthcare, and e-commerce. I'm a Google-certified UX Designer with a passion for user experience design and a proven track record of turning startups into thriving SaaS companies. My multi-disciplinary toolbox overflows with skills in user research, wireframing, prototyping, UI/UX/visual design, and even generative AI engineering. Whether you need a captivating website built with Elementor, a high-converting sales funnel, or a seamless user experience, I'm your one-stop design shop. I speak fluent English, and I can work with HTML, CSS, CDNs, and web hosting, making me as comfortable behind the code as I am sketching.

WORK EXPERIENCE

Feb 2024- Present
independent Consultant

User Experience Designer

Design and Develop Mobile & Immersive Interfaces: Create innovative and user-friendly Web and mobile designs using the Figma Software. Create wireframe options to display to potential clients. Work with clients to understand their needs and showcase their brand effectively. Gather and analyze user feedback to create widely adoptable designs. Utilize agile or lean development practices for rapid prototyping of designs, testing, and iteration.Communicate effectively with influencers and team members, both technical and non-technical.
